DETAILED ACTION

Claims 12-16, 20-24 and 28-32 are now pending.

REASONS FOR ALLOWANCE

In view of applicants' response and further consideration of copending application 10/275,856, which is now available for examination, it became clear that although the copending application has overlapping subject matter, the instant application has an earlier filling date. Moreover the copending application has not been examined yet. Hence the provisional double patenting rejection over 10/275,856 made in the previous office action is withdrawn to allow the instant application.

The compound of formula shown in claim 12, wherein M is N, namely 1,2,4-triazinone, with specific A, B, R² and Y⁰ groups as embraced in the instant claims was not found to be anticipated or rendered obvious by the prior art of record. Additionally, prior art search in the relevant art area yielded nothing teaching or suggesting the 1,2,4-triazinone, with specific A, B, R² and Y⁰ groups embraced in the instant claims. Therefore, the examiner noted that the Instant claims 12-16, 20-24, and 28-32 would be in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
